COVID - 19 HEALTH AND SAFETY INFORMATION

Updated on 01.09.2020

With our mission of providing services that exceed expectations since the very first day, we place utmost importance on the health and safety of our guests and employees and utilize all our means in this regard. Since COVID-19 was announced a pandemic on a global level we have been following up, researching and keeping up to date with the world management criteria on the hospitality front to ensure that we can offer the best service in a safe and comfortable environment for our guests.

Your health and contentment is of the utmost importance for us. Therefore we would like to share the list of preventions we, as Korineum Golf & Beach Resort, have undertaken in order to ensure this.

We look forward to seeing you on the skirts of the Five Finger Mountains, enjoying the fresh air and beautiful surroundings at your earliest convenience.

Wishing you great health and happiness until we meet.

YOU ARE SAFE

Korineum Golf & Beach Resort implements **The Hygienic Room Program** by Diversey Consulting, one of the world's leading companies for hygiene solutions that implements a certification program.

In addition to the high standards that we apply to our procedures concerning the safety of our guests, food and water, community health, hygiene, environmental safety, waste management and occupational health safety, preventative measures against the pandemic have been taken and immediately been implemented by our internal and external team of experts to provide safer accommodation services. We have successfully completed all required prerequisites dictated by our Ministry of Tourism and Environment and received our 'Advanced Level Hygiene Standards and Prevention Certificate' on 15th June 2020. We will of course remain as keen followers of any new suggestions or requirements for the future.

COVID - 19 HEALTH AND SAFETY INFORMATION

Updated on 01.09.2020

Common Areas

- Glass separators are placed at Reception, Bars and front of cashiers for the safety of our guests and staff.
- Common use areas are cleaned and disinfected periodically more than usual.
- All common areas in our premises have been rearranged according to social distancing and hand stations have been installed in the required areas.
- Stickers have been prepared on the floor as reminders to keep social distances for all our visitors and staff.
- Cleaning and disinfection of all common areas is carried out by our team of experts who have taken personal protective measures.
- The high-touch surfaces determined as critical points are cleaned with Diversay Oxivir Plus after the guests use.
- In addition to chemical disinfection processes, the steam method, ULV technique, ozone and UV technology are used to disinfect common areas and guest rooms.
- All common area toilets are equipped with antimicrobial liquid soap and hand sanitizers and are cleaned and disinfected with chemicals of medical category. The frequency of technical maintenance and disinfection of the hand dryers have been increased.
- The cleaning and disinfection processes of the ventilation ducts and filters have been increased.
- Ambient air in the Club House is regularly renewed with fresh air.
- The PH and chlorine levels in our pool are kept within the limits of the required standard, their values are checked, the frequency of reverse cleaning and rinsing is increased and filters are kept clean.

Employees

- Our employees temperatures are taken and recorded when they enter and exit premises. If they show any symptoms of Covid-19 they immediately checked by the doctors and necessary action is taken under Covid-19 regulations if needed.
- Service vehicles, work areas, common areas and offices used by employees are arranged according to social distancing, the intervals for cleaning and disinfection are increased and all necessary personal protective equipment is provided.
- Employees with the flu, cold or any illness are given sick leave and not allowed to return to work till they fully recover.
- The current status of all employees is closely monitored as per the "Covid-19 Health declaration and commitment".
- In addition to the standard food safety and general hygiene training given to our employees, awareness and hygiene trainings are provided regularly within the scope of Covid-19.

Hotel Rooms

- All chemicals and materials which are used for cleaning & disinfection are approved by TRNC Ministry of Health. We work with reputed international hygiene chemicals company Diversey.
- All our textiles are washed in our laundry at 90 degree and carried in packages until they put into use.
- All rooms are cleaned, disinfected after check out of the guest(s).
- All rooms are ventilated longer than usual.
- According to the cleaning plan, the rooms are cleaned starting with balcony, bedroom, dressing room, bathroom and lastly the toilet using disposable cleaning cloths and mops in different colors.
- All hard touch surfaces are sanitized with antiviral disinfectant.
- After check-out, the minibar's coolers and drawers are disinfected and all products and service equipment are renewed and secured with clean ones.
- All hotel amenities used in the room and bathroom are presented in single-use packages.
- Materials such as spare pillow, blankets and spare clothes hangers in the rooms have been removed and will be provided upon request.
- Disinfectant wipes and transparent gloves are placed in the rooms.
- The room service menu and all printed materials have been removed, they will be accessible through the TV in the room and on our website.
- Ventilation ducts and filters are cleaned and disinfected and the room is renewed with fresh air.
- Upon the completion of all cleaning, disinfection and preparation processes of the rooms, the doors are marked with disinfected sign until the entrance of the new guest.

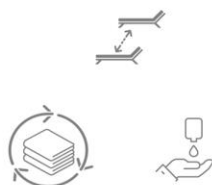

COVID - 19 HEALTH AND SAFETY INFORMATION

Updated on 01.09.2020
